

Bathroom Ceiling Heater with Exhaust Fan and Light

This ceiling-mounted unit combines a heater, light, and exhaust fan for bathroom use. It features infrared heating elements for rapid warmth, a central light panel, and an integrated exhaust fan to remove moisture and odors.

Product Overview

Integrated Bathroom Comfort Solution

This ceiling-mounted unit provides an all-in-one solution for bathroom climate control and lighting. By combining rapid infrared heating, integrated lighting, and an exhaust fan, it ensures your bathroom remains warm, well-lit, and properly ventilated. Designed for efficient moisture and odor removal, this system creates a comfortable environment while simplifying ceiling installations.

Technical Specifications

Heating Technology	Infrared
Integrated Functions	Heating, Lighting, Exhaust Ventilation
