

Bathroom Fixture with Heat Lamps and Exhaust Fan

This bathroom fixture combines heating, lighting, and ventilation. It features five heat lamps and an integrated exhaust fan, designed for ceiling installation in residential bathrooms.

Product Overview

All-in-One Bathroom Comfort Solution

This versatile bathroom fixture integrates heating, lighting, and ventilation into a single, efficient unit designed for ceiling installation. It features five heat lamps arranged in a square configuration to provide focused, immediate warmth for residential bathrooms. Additionally, the built-in exhaust fan effectively manages moisture and odors, ensuring a comfortable environment.
