

Bathroom Ventilation Unit with Heat Lamps

This ceiling-mounted unit integrates four heat lamps with an exhaust fan, providing warmth and ventilation for bathrooms. The unit features a metallic finish and a square design suitable for recessed installation.

Product Overview

Integrated Bathroom Comfort Solution

This ceiling-mounted ventilation unit combines powerful exhaust capabilities with rapid heat lamp technology to create a comfortable bathroom environment. Designed for recessed installation, the unit efficiently removes moisture and odors while providing instant warmth. It features a durable metallic finish and is engineered for ease of maintenance, including simple bulb replacement and fan cleaning.
