

# Battery Charger 100-240VAC

This is a compact battery charger. It accepts an input voltage range of 100-240VAC at 50/60Hz and 150mA.

## Product Overview

### Universal Battery Charger Solution

This compact battery charger is designed for versatility and reliability, supporting a wide input voltage range of 100-240VAC. It is compatible with global power standards, operating efficiently at 50/60Hz frequencies. This Class 2 device is engineered to provide consistent power delivery for compatible battery systems.

## Electrical Specifications

Input Voltage Range	100-240VAC
Input Frequency	50/60Hz
Input Current	150 mA

## Compliance & Safety

Device Class	Class 2
Country of Origin	China

## Model Identification

Model Number	HY090EP12420050KI
--------------	-------------------
