

Battery Charger 4.2V 500mA

This compact battery charger supports an input voltage range of 100-240V AC at 50/60Hz. It provides a 4.2V DC output at 500mA for charging batteries in various electronic devices.

Product Overview

Compact Power Solution

This 4.2V battery charger is a reliable and compact power solution designed for versatile use with various electronic devices. Featuring a universal input voltage range of 100-240V AC, it is suitable for international applications. The unit provides a steady 500mA output to ensure efficient charging performance.

Technical Specifications

Key Performance Metrics

| | |
|--------------------------------|---------------------------------|
| 4.2 V Output Voltage | 500 mA Output Current |
|--------------------------------|---------------------------------|

| | |
|---------------------|-------------|
| Input Voltage Range | 100-240V AC |
| Input Frequency | 50/60Hz |
| Input Current | 150 mA |
| Output Voltage | 4.2 V |
| Output Current | 500 mA |
