Overview

The innovative K1709 features a manual power generation system and a sleek, water-resistant stainless steel finish.

Eco-Friendly Battery-Free Precision

The K1709 is a revolutionary digital kitchen scale featuring an advanced Auto-Power Generation System that eliminates the need for traditional batteries. By utilizing a simple twist-to-power mechanism, it offers a sustainable and safe weighing solution that removes the risk of chemical leakage or accidental battery ingestion. Designed for durability and precision, it combines high-grade stainless steel aesthetics with a high-precision sensor for reliable culinary performance.

Key Performance Metrics

Core Specifications

5 kg

Maximum Capacity

1 g

Division/Readability

80000 cycles

Tested Operations

Power & Sustainability

Power Technology	Automatic Power Generation (Battery-Free)
Activation Method	Manual twist of a button for instant energy
Eco Benefits	No Battery Recycling, Chemical Leakage Prevention, Child Safe, Environmentally Friendly

Design & Build

Resistance	Water Resistant • Dust Resistant
Platform Material	High-grade Stainless Steel
Display Type	High-definition LCD on a rotating surface
Product Dimensions	250 x 182 x 32 mm

Functional Features

Key Functions	<ul style="list-style-type: none">• Tare function for zeroing container weight• Auto-off feature for energy conservation• High-precision sensor system• Simple operation for all ages
Supported Units	g, oz, lb, kg, ml
