Product Overview

An overview of the battery-free technology and compact, durable design suitable for travel.

Battery-Free Travel Convenience

This innovative luggage scale utilizes an advanced auto-power generation system, eliminating the need for batteries and making it a sustainable choice for frequent travelers. Designed for portability and durability, it features a high-accuracy sensor to help you avoid overweight baggage fees. With its compact form factor and aviation-grade materials, it is a reliable and eco-friendly companion for any journey.

Technical Specifications

Maximum Capacity	35 kg
Division	50 g
Dimensions	Æ67 45mm
Power Source	Automatic power generation

Features

Key Features

- Battery-free technology
- Auto-power generation system
- Hold function (locks weight on LCD)
- Aviation-grade belt material
- Compact and portable design

Performance Metrics

35 kg

Max Capacity

50 g
