

Battery Operated Clip-On Flameless Candles

Set of battery-operated LED flameless candles designed with a realistic flickering flame effect. Each candle is mounted on a clip-on base, allowing for easy attachment to various surfaces and creating ambiance without the risk of fire.

Product Overview

Ambient Lighting Solution

These battery-operated LED flameless candles provide a realistic flickering flame effect without the fire hazards associated with traditional candles. Designed with a convenient clip-on base, they attach easily to various surfaces for versatile placement. Crafted from plastic with a wax-like texture, they offer a safe, long-lasting, and durable lighting option for homes, events, and holiday decorations.
