

BBQ Grill Basket with Wooden Handle

This BBQ grill basket is designed for grilling smaller foods that might otherwise fall through the grill grates. It features a wire mesh construction to allow for even cooking and heat distribution.

Overview

Professional BBQ Grill Basket

This BBQ grill basket is specifically engineered for grilling smaller food items that typically fall through standard grill grates. Featuring a robust wire mesh construction, it ensures even heat distribution for consistent cooking results. The design includes a long wooden handle, providing a comfortable, heat-resistant grip for safe handling during grilling sessions.

Product Details

Model Number	04BQ12-10
Primary Material	Wire Mesh, Wood

Features

Key Benefits

- Prevents small food items from falling through grates
- Promotes even cooking and heat distribution
- Long handle for safe, comfortable grip
- Ideal for vegetables and seafood
