

Bead and Ogee Router Bit Set

This router bit set is designed for creating decorative edge profiles on wood. It includes a bead profile bit and an ogee profile bit for producing rounded and S-shaped profiles.

Product Overview

Professional Decorative Edge Shaping

This Bead and Ogee Router Bit Set is engineered for precision woodworking, allowing craftsmen to create elegant decorative edge profiles on wood pieces. The set includes two distinct bits designed for shaping internal and external corners, producing classic rounded bead or S-shaped ogee profiles. These high-quality bits are compatible with standard router collets, making them an essential addition to any woodworking workshop.
