

Bean-to-Cup Coffee Maker with Built-In Grinder

This bean-to-cup coffee maker is designed for home and office use. It features a built-in grinder, allowing users to brew fresh coffee from whole beans.

Overview

Freshly Brewed Coffee at Your Fingertips

This bean-to-cup coffee maker is an ideal solution for both home and office environments, featuring an integrated grinder for the freshest possible brew. Its sleek, modern design houses a programmable timer and adjustable strength settings to cater to diverse professional preferences. The inclusion of a thermal carafe ensures that beverages remain at the optimal temperature for extended periods without loss of flavor.
