

Bearing Sourcing and Procurement Services

Sourcing services for bearings and related mechanical components from international suppliers. Agency services include quality control, logistics, and supply chain management.

Sourcing Agency

sourcing & buying agency service

The services we can supply:

- 1) Sourcing and buying agency service
- 2) Warehousing, drop shipping service
- 3) Translation and trade exhibition interpreter service
- 4) Factory audit and goods inspection service
- 5) Shipping service (by sea, air, express mail or post mail)
- 6) OEM/ODM service

Service Overview

Professional Sourcing & Procurement

This service provides comprehensive sourcing and procurement representation for international buyers seeking industrial machinery components from China. Acting as a dedicated purchasing representative, the service mitigates risks associated with language barriers, cultural differences, and potential business fraud. It ensures a smooth, secure, and efficient supply chain process from initial inquiry to final delivery.

Service Scope

Included Services

- Sourcing and buying agency representation
- Warehousing and drop shipping
- Translation and trade exhibition interpreter support
- Factory audit and goods inspection
- Shipping logistics (Sea, Air, Express, Post)
- OEM/ODM manufacturing support
