

Bearing Unit HC200

This bearing unit is designed for machinery and industrial applications. It incorporates a precision bearing element within a housing, providing support for smooth rotational movement.

Product Overview

Robust Industrial Bearing Unit

The HC200 bearing unit is engineered for reliable performance and durability in demanding industrial machinery applications. It integrates a precision bearing element within a robust housing to provide essential support and facilitate smooth rotational movement. Designed for operational efficiency, this unit allows for straightforward installation and maintenance in various mechanical environments.

Technical Specifications

Dimensional Parameters

- Overall Diameter (D)
- Inner Diameter (d)
- Housing Length (L)
- G
- K
- Be
- T
- Bl
- n

Key Design Features

Precision Bearing, Robust Housing, Industrial Grade, Smooth Rotation

Maintenance & Installation

Installation

Engineered for easy installation and maintenance to ensure optimal operational efficiency.
