

Bearing with Seals

This bearing features a deep groove design suitable for various applications. Different sealing configurations, including metal shields and rubber seals, protect internal components.

Product Overview

Precision Bearing Solutions

This high-quality bearing is designed for reliable performance in diverse industrial applications. Featuring advanced sealing technology, it effectively retains internal lubrication while preventing contamination from dust and debris. The design includes versatile options for both metal shielding and rubber sealing, ensuring optimal protection based on your specific operational environment.

Technical Dimensions

Key Dimensions

0 mm

Inner Diameter (d)

0 mm

Outer Diameter (D)

0 mm

Width (B)

Sealing Configurations

Available Seal/Shield Types

Designation	Type	Description
Z	Metal Shield	Single-sided metal shield
ZZ	Metal Shield	Double-sided metal shield
RS	Rubber Seal	Single-sided rubber seal
2RS	Rubber Seal	Double-sided rubber seal

Seal Materials

Metal, Rubber
