

Belt Driven Air Compressor, 150L, 3.0 HP

This belt driven air compressor has a 150-liter capacity. It is equipped with a 3.0 horsepower motor, pressure gauge, safety valve, air outlet valve, wheels and handle.

Overview

Professional Belt-Driven Air Compressor

This one-stage belt-driven air compressor is engineered for reliability and performance in demanding work environments. Featuring a substantial 150-liter tank capacity and a powerful 3.0 HP motor, it provides consistent air pressure for various pneumatic tools and applications. Designed with mobility in mind, the unit includes integrated wheels and a handle, making it a versatile solution for workshops and job sites.

Technical Specifications

Tank Capacity	150 L
Motor Power	3 HP
Drive Type	Belt Driven
Compression Stage	One-stage

Key Features

Performance Highlights

150 L Tank Volume	3 HP Motor Output
-----------------------------	-----------------------------

Included Components

- Electric motor
- Belt-driven compressor pump
- Pressure gauge
- Safety valve
- Air outlet valve
- Portability wheels
- Transport handle

Design Features

Portable, Belt-Driven, Robust Construction
