Overview

Versatile Belt Grinding Machine

This robust belt grinding machine is engineered for precision shaping, sharpening, and finishing across a variety of materials. Designed for both metalworking and woodworking applications, it features a combination of a grinding wheel and a sanding belt for maximum versatility. The unit is built with a stable base and powerful induction motor to ensure consistent, reliable performance in demanding workshop environments.

Technical Specifications

Motor Power (HP)	0.33 HP
Motor Power (kW)	0.25 kW
Voltage	230 V
Frequency	50 Hz
Rotation Speed	2800 g/min
Protection Class	IP 44

Features

Key Features

- Induction motor
- Thermal protection
- Adjustable work rest
- Safety guard
- Adjustable grinding arm

Certifications	CE
