

Belt Sander - 1010W

This belt sander is a versatile tool for rapid material removal and surface preparation. It features a robust motor that delivers consistent sanding performance on various materials like wood, plastic, and metal.

Product Overview

High-Performance Belt Sander

This 1010W belt sander is engineered for rapid material removal and efficient surface preparation, making it an essential tool for professional woodworking and metalworking tasks. It features a robust motor that delivers consistent power, coupled with variable speed control to handle a variety of materials with precision. Designed with user comfort in mind, the tool includes a rubberized soft grip and an integrated dust collection system to ensure a clean and manageable workspace.

Technical Specifications

Input Power

900 W

Input Power

Sanding Speed

380 m/min

Sanding Belt Size

533 x 76 mm

Electrical Requirements

Voltage & Frequency

- 230V / 50Hz
- 120V / 60Hz

Features

Key Features

Variable Speed • Rubberized Soft Grip • Dust Bag Included
