

Belt

This belt is a versatile accessory. It features adjustable settings and sturdy construction for stability and accuracy.

Overview

High-Precision Industrial Drill Press

This robust drill press is engineered for precision and versatility in professional woodworking and metalworking environments. Featuring a powerful 550W motor and 12 adjustable speed settings, it offers exceptional control for a wide range of drilling applications. The unit is built with a sturdy cast iron base and worktable, ensuring stability and accuracy during operation, while integrated safety features like the NVR switch and drill bit guard prioritize operator security.

Technical Specifications
