Overview

Professional Bench Grinder

This stationary power tool is essential for metalworking, woodworking, and general manufacturing environments. It features a robust design with a motor-driven shaft supporting dual abrasive wheels, optimized for precision grinding, polishing, and tool sharpening. Engineered for stability, it mounts securely to workbenches to provide consistent performance for shaping and maintaining metal objects.

Technical Specifications

Primary Applications

- Metalworking
- Woodworking
- Tool Sharpening
- Polishing

Wheel Configuration

2 wheels
