Overview

Precision Benchtop Drilling Solution

This benchtop drill press is designed for household and professional workshops, offering a balance of simple operation and high reliability. It features a variable speed motor with a digital readout for precise control, alongside laser positioning for accurate hole placement. Safety is prioritized with integrated safety spectacles and a protective guard, making it an ideal choice for woodworking and metalworking projects.

Performance Highlights

Key Performance Metrics

16 mm

Max Drilling Capacity

450 W

Motor Power

2600 rpm

Max Spindle Speed

Technical Specifications

Spindle & Column

Feature	Specification
Spindle Taper	MT2
Spindle Travel	60 mm
Spindle Speed Range	300 - 2600 rpm
Distance Spindle Axis to Column	152 mm
Column Diameter	72 mm

Worktable & Capacity

Worktable Dimensions

- Table Size: 300 mm diameter
- Table Travel: 360 mm
- Chuck Size: 3-16 mm

Features & Safety

Key Features

- Variable Speed Control
- Digital Display (DRO)
- Laser Positioning System
- Integrated Safety Spectacles
- Safety Guard
