Overview

Professional Compact Table Saw

This powerful 600W induction motor table saw is engineered for precision and efficiency in a compact, portable form factor. It features a robust, stable stand and an integrated dust collection system, ensuring a clean and safe working environment. Ideal for woodworking and precision cutting tasks, this unit combines durability with easy transportability for various job site requirements.

Technical Specifications

Rated Power

600 W

Motor Power

Electrical Requirements

230V~50Hz, IP2X

Performance

Operational Metrics

- Idle speed: 2950 rpm
- Max cutting depth at 90°: 45mm
- Blade dimensions: 200mm diameter x 16mm bore
