Product Overview

Heavy-Duty Bevel Gear Adapter

This high-quality bevel adapter is precision-engineered for E336 and E330 construction machinery, ensuring reliable performance in heavy-duty applications. Designed for optimal fit and durability, this component facilitates secure power transmission, effectively reducing downtime and maintenance costs. It is manufactured to meet stringent industry standards, providing a dependable solution for demanding construction environments.

Technical Specifications

Compatible Machinery

- E336
- E330

Part Numbers 8E6464-60, 8E6464-55, 8E6464-8E3464

Weight 18.2 KG

Dimension 55 mm

Quality & Standards

Certifications

ISO 9001:2008 • CQC • CNAS
