Product Overview

High-Performance Bi-Metal Hole Saw

This high-speed steel bi-metal hole saw is engineered for precision and durability, making it an essential tool for cutting clean, accurate holes. Designed to perform across a wide range of materials including mild steel, stainless steel, aluminum, cast iron, wood, and plastic, it offers versatility for professional applications. Its robust construction and variable tooth pitch ensure efficient cutting performance and extended tool life, making it a reliable choice for electricians, plumbers, and general contractors.

Technical Specifications

Construction Features

- High-speed steel (HSS) bi-metal composition
- Variable tooth pitch for efficient cutting
- Precision-engineered teeth
- Robust construction for extended tool life

Compatible Materials

Mild Steel, Stainless Steel, Aluminum, Copper, Cast Iron, Wood, Plastic

Diameter

32 mm

Compatibility

System Compatibility

- Standard hole saw arbors
- Standard drill chucks
- Pilot drills

Target Audience

Recommended For

Electricians • Plumbers • General Contractors
