

Bias Tape Maker Tool

This tool simplifies the process of making bias tape, ensuring consistent width and neat folds. It features a funnel-shaped design that guides the fabric through, folding and pressing it into the desired bias tape shape.

Product Overview

Precision Bias Tape Creation

This bias tape maker is a specialized tool designed for sewing and quilting professionals to create perfectly folded bias tape with ease. Its funnel-shaped design guides fabric through, ensuring consistent width and neat, professional-grade folds every time. Ideal for binding edges, creating decorative trims, and adding finishing touches to complex sewing projects, this metal tool provides the stability and precision required for high-quality results.

Technical Specifications

Model ID	A-10
Tape Width	34 mm
Material	Metal

Usage Details

Key Features

- Funnel-shaped fabric guide
- Consistent fold width
- Stable metal construction
- Suitable for machine attachment

Primary Applications	Sewing, Quilting, Edge Binding, Decorative Trim
