

Bicycle Crankset with Chain Guard

This bicycle crankset features a durable metal crank arm. It includes a plastic chain guard designed to protect clothing and prevent chain derailment.

Overview

Durable Crankset with Integrated Protection

This bicycle crankset is engineered for reliability and efficient power transfer, featuring a robust, polished metal crank arm. It comes equipped with a lightweight yet sturdy plastic chain guard, which features an intricate cutout design to balance aesthetics and functionality. Designed for versatility, this unit is compatible with standard bicycle bottom brackets and chain sizes, making it an ideal choice for maintenance or upgrades.
