

Bicycle Crankset with Chainring and Guard

This bicycle crankset features a circular chainring with integrated teeth for chain engagement, paired with a single crank arm. Designed for single-speed or internally geared hub drivetrains, the crankset ensures smooth and reliable performance.

Product Overview

High-Performance Bicycle Crankset

This bicycle crankset is engineered for efficiency and reliability, featuring a lightweight alloy construction that ensures optimal power transfer. Designed for versatility, it is compatible with single-speed or internally geared hub drivetrains and includes a protective transparent guard. The assembly is built for durability and smooth performance, making it an excellent choice for various bicycle configurations.

Technical Specifications

Material	Lightweight Alloy
Drivetrain Compatibility	Single-speed, Internally Geared Hub
Bottom Bracket Interface	Square Taper

Features

Included Components

- Crank Arm
- Chainring
- Transparent Chain Guard

Safety & Protection

Integrated Guard • Debris Protection
