

Bicycle Crankset with Chainrings and Guard

This bicycle crankset features multiple chainrings of varying sizes, providing a range of gear ratios. It is designed for efficient power transfer and includes a protective chain guard.

Product Overview

High-Performance Bicycle Crankset

This bicycle crankset is engineered for efficient power transfer, converting rider input into smooth drivetrain movement. Featuring a multi-chainring design, it offers versatile gear ratios suitable for various riding conditions and terrains. The assembly includes a protective chain guard to maintain drivetrain integrity and comes constructed from durable, lightweight materials to ensure long-lasting performance.

Technical Specifications

Key Features

- Multi-chainring configuration
- Integrated protective chain guard
- Lightweight crank arm construction
- Optimized for smooth shifting

Durability Rating

Wear-Resistant • High-Strength
