

Bicycle Front Derailleur

This bicycle front derailleur ensures smooth and precise shifting. Its durable construction provides reliable performance and is compatible with various bicycle frames and drivetrain configurations.

Product Overview

High-Performance Front Derailleur

This high-quality bicycle front derailleur is engineered for smooth and precise shifting across a variety of cycling conditions. Constructed from durable materials, it offers reliable performance and long-lasting durability for both road and mountain bikes. With its robust cage design and adjustable settings, it ensures optimal chain alignment and efficient gear changes for every ride.

Compatibility & Application

Compatible Bike Types	Road Bike, Mountain Bike
Drivetrain Compatibility	Versatile compatibility with various drivetrain configurations

Technical Features

Key Features

- Smooth and precise shifting
- Robust cage design
- Adjustable settings for fine-tuning
- Optimal chain alignment

Construction

Durable Material • High Performance
