

# Bicycle Front Headlight with LED Display

This bicycle headlight provides enhanced visibility for safer cycling. It features dual high-intensity LEDs, a battery indicator, and a durable, water-resistant construction.

## Product Overview

### High-Performance Bicycle Illumination

This compact bicycle front headlight is engineered for optimal visibility and safety during nighttime cycling. Featuring dual XML-XPE LEDs, it delivers a powerful 450-lumen beam housed in a durable aluminium alloy casing. With an IP65 water-resistance rating and an integrated LED battery display, this light is a reliable companion for various weather conditions and riding environments.

## Technical Specifications

### Lumen Output

**450 LM**  
Brightness

### Light Modes

- High
- Medium
- Low

**Battery Capacity** 1800 mAh

**Bulb Configuration** XML-XPE x 2

## Physical Attributes

**Housing Material** Aluminium Alloy

**Dimensions** 79 x 48 x 29 mm

**Gross Weight** 170 g

**Mounting Type** Quick release bracket

## Compliance & Ratings

**IP Rating**  
IP65

**Certifications** CE, ROHS, PSE, MSDS
