Overview

Professional High-Pressure Hand Pump

This versatile hand pump is engineered for high-pressure performance, reaching up to 150-200 PSI for rapid and accurate inflation. Featuring a robust seamless steel cylinder and a heavy-duty cast iron pedestal, it is designed for durability in both professional and home environments. Its universal valve compatibility and integrated pressure gauge make it an essential tool for maintaining bicycles, motor vehicles, and sports equipment.

Key Performance Metrics

Performance Highlights

150 PSI
Max Pressure

650 mm
Cylinder Length

38 mm
Cylinder Diameter

Technical Specifications

Cylinder Material	Seamless Steel Pipe
Base Material	Casting Iron Pedestal
Air Pipe Material	PUR Soft prolong air pipe (High-temperature resistant)

Valve & Compatibility

Included Attachments

- Dual-purpose gas nozzle
- Ball inflation needle
- Accessory attachments for toys

Valve Compatibility

Presta, Schrader, American Type, British Type, French Type

Design & Ergonomics

Handle Design

- Ergonomic grip
- Anti-slip surface
- Integral injection molding

Storage Features

Double-sided buckle for easy hose storage

Applications

Recommended Uses

Bicycles • Motorbikes • Cars • Sports Balls • Inflatable Toys

Monitoring

Pressure Gauge

Yes

Gauge Display Units

PSI, Lb/in², kg/cm²
