

Bicycle Multi-Speed Freewheel

This multi-speed freewheel is designed for bicycle rear wheel drive systems. Its multiple sprockets offer a range of gear ratios suitable for various terrains and riding conditions.

Product Overview

High-Performance Multi-Speed Freewheel

This multi-speed freewheel is engineered for bicycle rear wheel drive systems, offering versatile gear ratios to handle a variety of terrains and riding conditions. Constructed from durable steel, it is designed to withstand rigorous use while ensuring smooth and reliable shifting performance. It serves as a robust component for upgrading or maintaining bicycle drivetrains.

Technical Specifications

Key Features

- Durable steel construction
- Smooth shifting mechanism
- Multiple sprocket sizes for variable gear ratios

Number of Speeds	6 speed
Material	Steel
Compatibility	Rear Wheel Drive, Multi-Speed Drivetrains
