

Bicycle Quill Stem - Purple Alloy

This bicycle stem connects the handlebars to the fork. It is made of lightweight alloy and anodized in a vibrant purple.

Product Overview

Vintage-Style Quill Stem

This vibrant purple alloy quill stem is designed for classic bicycles featuring threaded headsets. Crafted from lightweight, durable alloy, it provides a reliable connection between your handlebars and the fork steerer tube. Its anodized finish adds a distinct aesthetic touch, making it an ideal choice for restoration projects or custom builds requiring a quill-style interface.
