

Bicycle Rear Derailleur

This bicycle rear derailleur is designed for smooth and reliable gear changes. Constructed from durable materials, it offers long-lasting performance and compatibility with various bicycle drivetrains.

Product Overview

Precision Engineering for Drivetrains

This bicycle rear derailleur is engineered to deliver smooth and reliable gear changes for a variety of cycling applications. Constructed from durable, high-quality materials, it is designed to withstand rigorous use while maintaining long-lasting performance. With its robust mounting system and precise adjustment mechanisms, it ensures optimal chain alignment and shifting accuracy for a seamless riding experience.

Technical Specifications

Performance Features

- Smooth gear transitions
- Reliable shifting mechanism
- Precise adjustment capability
- Optimal chain alignment

Construction

Durable Materials • Robust Mounting

Compatibility

Various Drivetrains, Standard Bicycle Frames
