

Bicycle Rear Derailleur with Adjustable Tension

This bicycle rear derailleur is designed for smooth and precise gear shifting. The adjustable tension screw allows for fine-tuning of shifting performance, making it suitable for various bicycle types.

Product Overview

Precision Shifting Performance

This bicycle rear derailleur is engineered for smooth and precise gear shifting, ensuring reliable performance for various bicycle types. Featuring a durable construction with a sleek silver finish and contrasting black accents, it is built to withstand the rigors of everyday riding. The integrated adjustable tension screw allows for fine-tuning of shifting performance, making it an essential component for maintaining optimal drivetrain efficiency.
