

Bicycle Rear Derailleur with Red Jockey Wheels

This bicycle rear derailleur is a crucial component for shifting gears on the rear cassette. The derailleur body is constructed from durable materials to withstand cycling and is compatible with various speed cassettes.

Overview

High-Performance Rear Derailleur

This rear derailleur is engineered for smooth, reliable gear shifting, making it an essential upgrade for any drivetrain system. Featuring a durable construction and striking red jockey wheels, it combines functional performance with a distinct aesthetic. Designed to handle the rigors of regular cycling, this component ensures consistent indexing and precise chain movement across your rear cassette.

Technical Details

Key Features

- Durable body construction
- Smooth indexing performance
- Enhanced jockey wheel design

System Type	Index System
Finish	Black with Red Jockey Wheels
Compatibility	Multi-speed cassettes, Standard drivetrain
