

Bicycle Shift and Brake Lever Set

This set includes both bicycle shift levers and brake levers. The shift levers feature grip shifters with numbered indicators, while the brake levers are designed in black and silver.

Product Overview

Performance Control Set

This bicycle shift and brake lever set is engineered for riders seeking reliable control and efficient gear transitions. The system features integrated grip shifters with clear numbered indicators, allowing for precise gear selection on the fly. Designed with a durable black and silver finish, these components are essential for maintaining smooth operation and safety during cycling.
