

Bicycle Spindle

High-quality spindle part designed for bicycles. This component is engineered for durability and smooth operation, ensuring optimal performance.

Product Overview

High-Performance Bicycle Spindle

This high-quality bicycle spindle is engineered for durability and smooth operation, ensuring optimal performance for the rotating assembly. Manufactured to precise specifications, it provides excellent load-bearing capacity and high resistance to wear and tear. It is an ideal component for both professional repair services and individual bicycle upgrade applications.

Technical Specifications

Model Identifier	GW-04008-153
Size	3/8" x 170mm

Logistics and Packaging

Packaging Metrics

240 pcs Quantity per Carton	33 kg Gross Weight	32 kg Net Weight
Carton Measurements	38 x 28 x 23 cm
