

Black Beach Cruiser Bicycle with Fenders

This beach cruiser bicycle is designed for comfortable riding on paved surfaces and recreational use. It features front and rear fenders, wire-spoked wheels, and a single-speed drivetrain.

Product Overview

Comfortable Urban Cruiser

This black beach cruiser bicycle is designed for optimal comfort and style during recreational riding on paved surfaces. It features a distinct curved frame geometry paired with high-rise handlebars for an upright, relaxed riding posture. Equipped with full front and rear fenders, it offers protection against road spray, making it a reliable choice for casual urban commuting or leisure.
