

Black BMX Bicycle with High-Rise Handlebars

This BMX bicycle is designed for performing stunts and tricks. It features a durable build and responsive handling.

Overview

Built for Performance and Durability

This black BMX bicycle is engineered for riders seeking a robust and responsive machine for stunts and tricks. Featuring a distinctive high-rise handlebar design and a curved seat post, it offers specialized geometry for maneuverability. The single-speed drivetrain simplifies maintenance, while the striking white rims provide a bold aesthetic contrast against the black frame.
