

Black Oxide Hex Head Bolt

These high-strength hex bolts are finished with a black oxide coating for added corrosion resistance. Featuring a hexagonal head, they facilitate easy installation and tightening using standard wrenches.

Product Overview

High-Strength Hex Head Bolts

These black oxide hex head bolts are engineered for heavy-duty fastening applications across industrial and construction sectors. Designed for durability and reliability, they feature a hexagonal head for efficient wrenching and a protective finish. They are manufactured to meet rigorous international standards, ensuring consistent performance for building, automotive, and furniture assembly projects.

Technical Standards

Standard Types

- DIN
- ISO
- ANSI
- ASME
- BS
- AS
- JIS

Supported Standards

DIN931, DIN933, DIN960, DIN961, DIN934, DIN125, DIN127, DIN6914, DIN6915, DIN6916, DIN7990, ISO4014, ISO4017, ASTM A325, ASTM A490, ASTM A563, ASTM F436, ASTM A193 B7, ASTM A194 2H

Material & Finish

Material

Carbon Steel • Alloy Steel

Available Finishes

- Plain
- Black oxidized
- Zinc Plated (white, yellow, blue, color)
- Hot Dip Galvanized
- Dacromet

Performance

Grade

8.8, 10.9, 12.9, gr5, gr8

Logistics

Supply Ability

800 tons

Monthly Supply

Delivery Time

7-30 days

Packaging Details

25kg per carton, 36 cartons packed in a pallet or according to your demands
