

Black Polyethylene Tubing Coil

Black polyethylene tubing is coiled for convenient storage and transport. It is suitable for drip irrigation systems, water lines, and protective conduits for electrical wiring due to its resistance to chemicals and UV radiation.

Product Overview

Versatile Polyethylene Tubing

This black polyethylene tubing coil is a durable and flexible solution designed for a wide range of fluid transfer applications. Engineered to withstand outdoor environments, the material offers high resistance to both chemicals and UV radiation, ensuring long-term reliability. Its coil design allows for efficient storage and transport, making it an ideal choice for professional irrigation systems, water supply lines, and protective conduits.

Physical Properties

Material	Polyethylene
Color	Black
Flexibility	Yes

Performance & Durability

Resistance Features	UV Resistant, Chemical Resistant, Outdoor Rated
---------------------	---

Applications

Typical Applications

- Drip irrigation systems
- Water supply lines
- Protective electrical conduit

Logistics

Packaging

Coiled
