

Black RTV Silicone Gasket Maker

This high-tech sealant instantly makes most gaskets. It resists cracking and shrinking while remaining flexible, and is also resistant to oil, water, and antifreeze.

Product Overview

High-Performance RTV Silicone Sealant

This Black RTV Silicone Gasket Maker is a professional-grade sealant designed to instantly form reliable gaskets for a wide range of automotive and industrial applications. It is engineered to resist cracking and shrinking while maintaining essential flexibility under stress. The formula provides robust resistance against oil, water, and antifreeze, ensuring a durable seal in demanding environments.

Physical Properties

Net Weight	85 g
Net Weight (Imperial)	3 oz
Color	Black

Performance Features

Resistances	Oil Resistant, Water Resistant, Antifreeze Resistant, Cracking Resistant, Shrinkage Resistant
Flexibility	Yes

Applications

Common Applications

- Valve covers
- Intake manifolds
- Oil pump flanges
- Transmission pans
- Water pumps

Safety Information

Safety Notice	Keep out of reach of children. Uncured sealant causes irritation on contact.
