Product Overview

High-Performance Bladeless Fan Motor

This versatile motor is specifically engineered for integration into various bladeless fan designs. It offers a robust construction for durability and long-lasting operation, ensuring smooth and efficient airflow for household or commercial ventilation systems. The unit is designed for quiet performance with minimal vibration, and can be customized in terms of size, performance, and aesthetic requirements to fit your specific product needs.

Technical Specifications

Performance Range

45 W

Max Output Power

1450 rmp

Max Rotation Speed

Operating Specifications

Model	Voltage (V)	Frequency (Hz)	Power (W)	Speed (rpm)
YHZY	110	50	3-45	800-1450
YHZY	110	60	3-45	800-1450
YHZY	220	50	3-45	800-1450
YHZY	220	60	3-45	800-1450
YHZY	230	50	3-45	800-1450
YHZY	240	50	3-45	800-1450
