

Blower Vacuum for Yard Cleanup

This blower vacuum is a versatile tool designed for efficient yard cleanup. It functions as both a blower and a vacuum, allowing users to easily clear leaves, debris, and other materials from lawns, driveways, and patios.

Product Overview

Versatile Yard Cleanup Solution

This high-performance blower vacuum is designed for efficient maintenance of lawns, driveways, and patios. It seamlessly transitions between blowing and vacuuming functions, allowing users to clear debris and mulch leaves with a 10:1 reduction ratio. With its powerful 2000W motor and ergonomic design, it offers a practical and comfortable solution for demanding outdoor cleanup tasks.

Technical Specifications

Rated Voltage	230V~50Hz
Rated Power	2000 W

Performance Metrics

Key Performance Metrics

270 KM/H
Wind Speed

13.5 m³/min
Air Blow Volume

14000 /min
Max No-Load Speed

Features

Mulching Ratio	10:1
Collection Bag Capacity	40 L
