

Blue and White Step-Through Scooter

This scooter has a step-through frame, front and rear suspension, and a single-cylinder engine with an exhaust system. It is equipped with both front and rear disc brakes and alloy wheels.

Overview

Versatile Urban Mobility

This blue and white step-through scooter is designed for efficient urban commuting and ease of use. Featuring a durable single-cylinder engine and a comfortable step-through frame, it provides a practical solution for navigating city streets. Equipped with reliable front and rear disc brakes and suspension on both ends, this vehicle balances safety, stability, and rider comfort.
