

Blue LED Backlit USB Keyboard

This keyboard features a full QWERTY layout with function keys and a numeric keypad. It has blue LED backlighting for enhanced visibility in low-light conditions and connects via USB.

Overview

Professional Desktop Keyboard

The KBW0820L is a reliable, full-sized desktop keyboard designed for both home and office environments. Featuring a standard QWERTY layout with a dedicated numeric keypad and navigation keys, it ensures efficient typing and data entry. Its low-profile, spill-resistant construction combined with blue LED backlighting makes it a durable and highly visible choice for any workspace.
