

Blue Powder-Free Nitrile Disposable Gloves

These are blue, powder-free nitrile gloves designed for disposable use. They provide hand protection for tasks that require dexterity.

Product Overview

Professional Grade Nitrile Protection

These blue, powder-free nitrile gloves are engineered for reliability in non-medical environments. Designed to provide excellent tactile sensitivity and dexterity, they are an essential choice for professionals in laboratories, workshops, and general hospital support tasks. Their durable construction ensures consistent performance for a wide range of daily operations.
