

Blue Street Motorcycle with Spoked Wheels

This motorcycle is designed for street use. It features a single-cylinder, air-cooled engine, spoked wheels, and a blue fuel tank.

Overview

The SL200C Street Motorcycle

The SL200C is a reliable, air-cooled street motorcycle designed for daily commuting and urban utility. Featuring a vibrant blue fuel tank and classic spoked wheels, it combines a traditional aesthetic with practical features like a rear luggage rack. Its single-cylinder engine and standard telescopic suspension system ensure a balanced and manageable ride for various professional applications.
