Overview

Smart Body Composition Analysis

This Bluetooth-enabled smart scale provides a comprehensive health overview by measuring weight and calculating various body composition metrics. Featuring a durable 5mm tempered glass platform and a high-visibility LED display, it offers professional-grade accuracy with four precision sensors. The scale seamlessly integrates with a dedicated mobile app to track long-term health trends for up to 8 different users.

Physical Design

Display Type

LED Display • White Digits • 28mm Segment Height

Platform Material	5mm tempered glass
Scale Dimensions	280 x 280 x 22 mm

Measurement Performance

Capacity & Precision

180 kg	100 g
Max Capacity	Division

Supported Units	kg, lb, st

Smart Features

Comprehensive body composition analysis with high-precision BIA technology and multi-user support via smartphone app.

Tracked Health Metrics

- Body Weight & BMI
- Body Fat % & Fat Mass
- Muscle Mass & Muscle Rate %
- Water Content %
- Bone Mass
- Visceral Fat
- Basal Metabolism (KCAL)
- Metabolic Age
- Protein Rate & Mass
- Obesity Level

Connectivity	Bluetooth with App Control (iOS & Android)

Technical Specifications

Sensor Technology	4 high-precision strain gauge sensors
Power Supply	3 x AAA batteries (included)
Operational Features	Step-on Start, Auto-off, Overload Indication, Low Battery Indication

User Management

User Memory	8 Profiles
