Overview

Advanced Body Composition Analysis

This Bluetooth-enabled smart scale utilizes high-precision ITO glass technology and BIA biometric sensors to provide a comprehensive view of health beyond simple weight. It tracks over 18 essential body metrics, including body fat, muscle mass, and metabolic age, syncing seamlessly with the Dr. Weight app. Designed for modern households, it supports multiple user profiles and integrates with popular health platforms like Google Fit and Apple Health.

Physical Construction

Build Specifications

Feature	Details
Platform Material	6mm ITO Tempered Glass
Dimensions	319 x 319 x 24 mm
Display Type	LED with White Digitals
Digit Height	28 mm
Safety Design	Ergonomic rounded corners

Supported Units

kg / lb / st

Smart Features & Connectivity

Comprehensive health tracking with the Dr. Weight app, featuring BIA biometric technology for accurate body composition analysis.

Connectivity & App Features

- Bluetooth 4.0 Auto-connection
- Compatible with iOS and Android
- Syncs with Google Fit and Apple Health Kit
- Social platform sharing (Facebook/Twitter)
- Multiple User & Guest Modes
- 14 language support in-app

Measurement Capabilities

Tracked Health Metrics

Weight, BMI, Body Fat %, Water Content %, Muscle Mass, Bone Mass, KCAL, Visceral Fat, Metabolic Age, Protein Rate, Obesity Level, Body Type

Operation & Power

Smart Functions

Step-on Start • Auto-off • Overload Indication • Low Battery Indication • Auto-Zero

Power Source

4 x AAA batteries (included)
